

RAID 0+1

RAID 10

“Mirrored Stripe & Striped Mirror”

Faster, Large, & Safe/Redundant Storage

- Increased speed and size, but also benefit from redundancy.
- Array shows up as 1 logical volume on your desktop.

Perfect For

- Anyone wanting the speed and large capacity of striping, but the safety/protection of mirroring.
 - Store music, photos, videos
 - Anything that takes time to create
 - Anything that is difficult to replace
 - Anyone needing faster data rates

Protection

- Essentially using both RAID 0 & RAID 1 arrays together.
- Apple's Disk Utility and  **SoftRAID** can do RAID 0+1 & RAID 10 as well as hardware RAID systems.
