

## Features and Benefits

● **Web Based Remote Access Using Any Java Enabled Web Browser**

The DCS-1000 ensures compatibility with your computer and operating system by utilizing a web management interface, accessible using any Java-enabled web browser.

● **Integrated Web Server**

The DCS-1000 eliminates the need to connect the camera directly to your computer by using an integrated web server. Once installed, you use the built-in IP address to gain access to the camera, view live streaming video, and make necessary changes to camera settings.

● **10/100Mbps Fast Ethernet Connection**

The DCS-1000 utilizes the speed and convenience of 10/100Mbps Fast Ethernet. Using a standard RJ-45 Fast Ethernet jack, the DCS-1000 easily connects to your existing Fast Ethernet network using the included CAT5 Fast Ethernet networking cable.

● **Bundled Software for Multi-Camera Monitoring and Management**

The DCS-1000 includes IPView, a Windows based monitoring application. IPView allows you to control all of the DCS-1000 or DCS-1000W cameras on your LAN from one location. IPView also lets you view as many as 16 cameras on one screen, supports manual and scheduled recording to an AVI movie file on your hard drive, and supports motion detection to trigger automatic recording.

● **Streaming Video at up to 30 Frames Per Second**

The DCS-1000 uses Motion-JPEG to stream live video at up to 30fps using Motion-JPEG technology. The camera supports resolutions up to 640x480 and five levels of JPEG compression to customize image size and quality to ensure a steady stream to any viewer.

DCS-1000

## Express EtherNetwork™ Internet Camera

### Product Information

Part No: DCS-1000  
Description: Express  
EtherNetwork Internet Camera  
UPC: 790069-241420  
D-Link Systems, Inc.  
TEL: (877) 45D-LINK  
www.dlink.com

### Package Contents

- DCS-1000
- Software & Documentation on CD-ROM<sup>1</sup>
- Stand & Mounting Brackets
- AC Power Adapter
- Installation Guide
- Manual
- CAT5 Cable

1: Latest Software and Documentation are Available at <http://support.dlink.com>
