

On-The-Go Storage

We may write a lot about image storage, but it is an invaluable source if you're a heavy traveler, or a constant shooter. Offering blazing speed and massive storage, Other World Computing gives you the 7200 rpm Mercury On-The-Go 200GB portable hard drive. With the ability to fit in the palm of your hand, and functionality to connect via a USB drive, the universal Mercury On-The-Go fits nearly every computer so compatibility won't be an issue. It can connect to any flash drive or digital camera via USB so that you can dump thousands of images and video on to the drive. So pick up this little powerful device if you want to put a heavy-duty amount of images, or if you just want to back up your computer, this may be the perfect archiving tool for you. (\$359.99)
