

OWC Announces Mercury On-The-Go 200GB

Other World Computing (OWC) announced the Mercury On-The-Go 200GB portable hard drive. Equipped with FireWire 800/400, USB 2.0, and eSATA interfaces, the OWC Mercury On-The-Go 200GB 7200RPM is a bus-powered, palm-sized, high-performance storage solution.

The drive is compatible with virtually all computers with an available FireWire or USB port, including all Macs and PCs. The Mercury On-The-Go also works with all FireWire or USB gadgets, including digital cameras and camcorders. For details, check out www.macsales.com.
